

# Paul Irofti

Full Professor  
Department of Computer Science,  
University of Bucharest,  
14 Academiei, 010014 Bucharest  
Email: paul@irofti.net, paul.irofti@fmi.unibuc.ro  
Homepage: <https://cs.unibuc.ro/~pirofti>

Anomaly Detection  
CyberAI  
Security  
Dictionary Learning  
Operating Systems  
GPU Parallel Algorithms

## Education

Habilitation in Computer Science,  
thesis “*Anomaly Detection for Water Distribution, Financial Transactions and Computer Networks*”,  
University of Bucharest, Bucharest, 2024

Ph.D. in Systems Engineering,  
thesis “*Parallel Dictionary Learning Algorithms for Sparse Representations*”,  
University Politehnica of Bucharest, Bucharest, 2011–2016

Engineer, Faculty of Automatic Control and Computers,  
University Politehnica of Bucharest, Bucharest, 2003–2008

Mathematics and Computer Science, Saint Sava National College, Bucharest, 1999–2003  
Waldorf School, Bucharest, 1991–1998

## Fields of Interest

Anomaly Detection, CyberAI, Security, Dictionary Learning, Operating Systems, GPU Parallel Algorithms

## Experience

### *University of Bucharest*

Full Professor in the Department of Computer Science  
at the Faculty of Mathematics and Computer Science,  
October 2025 – Present

Researcher and Founding Member of The Research Center for Logic, Optimization and Security (LOS)  
of the Department of Computer Science at the Faculty of Mathematics and Computer Science,  
September 2020 – Present

Associate Professor in the Department of Computer Science  
at the Faculty of Mathematics and Computer Science,  
February 2021 – October 2025

Vice Dean of the Faculty of Mathematics and Computer Science,  
In charge of Research, IT, and Industry Relations.  
February 2020 – February 2024

Lecturer in the Department of Computer Science at the Faculty of Mathematics and Computer Science,  
February 2018 – February 2021

### *Three Tensors*

Associate and Founding Member of Three Tensors SRL  
May 2024 – Present

### *AI Manufacturing*

Associate and Founding Member of AI Manufacturing SRL  
December 2023 – Present

### *The Institute for Logic and Data Science*

Vice-President and Founding Member of The Institute for Logic and Data Science (ILDS)  
April 2022 – Present

### *University Politehnica of Bucharest*

Postdoc at Faculty of Automatic Control and Computers, "Implementation and development of algorithms for the dynamic motion planning of robotic systems", CEC 2017 project, 2017

- Navigation algorithms for robotic systems
- Generate trajectories which fulfill optimally costs
- ROS-based Gazebo implementation for TurtleBot

Postdoc at Faculty of Automatic Control and Computers, "Set-theoretic approaches for fault tolerant control of complex systems", TE 2015 project, September 2015 - December 2017

- Sensor placement using sparse representations and dictionary learning
- Applications in water distribution networks

Research Assistant at Faculty of Automatic Control and Computers, "Sparse representations in signal processing", IDEI 2011 project, January 2014 - September 2016

- Parallel algorithms for sparse and redundant representations for dictionary learning and training
- Applications in image processing (reconstruction, compression, noise reduction etc.)
- Heterogenous implementations on the GPU and CPU via OpenCL

### *FileMedic*

- Project Lead: AntiMalware Emulator Implementation, 2011-2013
- Build, Test and Report Infrastructure, autumn 2011 - spring 2012
- Internal Telephony Infrastructure Setup, spring 2011
- Static Antivirus Engines Development, winter 2010 - 2011
- Developing a Generic Server/Router Security Solution, 2010

### *OpenBSD*

- Adapt kernel and libc for timecounting in userland, summer 2020
- Add TSC synchronization for multiprocessor machines, autumn 2019
- libunwind IP-based caching implementation with O(logn) lookup, spring 2019

httpd(8) FastCGI params support, spring 2019  
New semaphore implementation making sem\_post async-safe, summer 2018  
net80211 improve wireless network scanning, spring 2018  
Standardize and fix various threading and concurrency issues, 2017-2018  
ACPI resource parsing improvements, autumn 2016  
Intel Extreme Tuning driver acpixtu(4), autumn 2016  
Flash memory driver conforming to CFI specifications, summer 2015  
Octeon-specific driver for the USB Host Controller Interface, summer 2014  
Broadcom PHY driver for BCM53115 found on the Octeon DSR-500, spring 2014  
Driver implementation for the DS1337 TOD clock for the Octeon platform, winter 2014  
USB device drivers clean-up, autumn 2014  
Driver implementation for the hardware random number generator on the Octeon platform, autumn 2014  
Porting OpenBSD to the Octeon-based D-Link DSR-500, summer 2013  
Hibernate support for the Loongson platform, summer 2013 (work in progress)  
Statistic clock support for the Loongson platform, winter 2013  
CPU scaling support for the Loongson CPU, 2010-2013  
Porting the System for the Itanium Platform, 2011 (work in progress)  
Futex Implementation, summer 2011  
Expanding the Emulation Layer for Linux Binaries, 2010-2011  
Suspend/resume support for the Loongson Platform, 2010-2011  
Porting Mathematical Applications: Octave, GiNaC, CLN and others, 2009-2010  
Driver Implementation for Sony Specific Functionality, acpisony(4), 2010  
Generic Kernel Framework for suspend/resume, 2009-2010  
Expansion of the Device Autoconfiguration Framework, automn 2009  
Real-mode Emulator Kernel Integration for the Video BIOS, 2009  
Driver Implementation for Power Resource Management, acpipwrres(4), summer 2009  
Driver Implementation for Video Adjustment, acpivout(4), 2008 - summer 2009  
Driver Implementation for Multiple Video Output, acpivideo(4), 2008 - summer 2009  
ACPI Framework Development, 2008-2010

### *BitDefender*

64-bit JIT support for the emulator, summer 2010  
IEEE 754 Floating Point Support, 2010  
Themida Unpacker, 2009  
Native Decryption methods for SVKP unpacking, spring 2009  
Vmprotect Unpacker, winter 2008-2009  
API Emulation: VB.NET, VBScript, 2008  
tELock Unpacker, summer 2008

### *Unidec*

Project Lead: Implementing a Generic Telephony-server Solution, 2007-2008  
 IVR Implementation, 2007  
 VoIP Protocol Implementation (IAX2, SIP), 2006  
 VoiceMail Solutions Development for NEC America, 2005-2006

## Collaborations

MTier, Oil Industry: Native Binary Emulation of Linux Executables on OpenBSD, 2010, 2012;  
 Security and Operating Systems consultant, 2016–2020  
 Bitfusion.io, I.T. Supercomputing Industry: Optimiziation and scaling of OpenCL workloads, 2015  
 Parta, I.T. Security Industry: Driver implementation and application porting for OpenBSD, 2014, 2015

## Scholarships and Research Grants

Coordinator of the “Solutions” consortium project “DeDDoS – Innovative hardware anti-DDoS solution based on artificial intelligence (AI)”, 2024-2026  
 Coordinator of the “Solutions” consortium project “LEGAT – Advanced computer system based on artificial intelligence (AI) for identifying and extracting entities from unstructured data collections”, 2024-2026  
 Coordinator of the “Solutions” consortium project “NetAlert – Automatic tools for detecting abnormal behavior in computer networks” (30SOL/2021), 2021-2023  
 Principal investigator of the “Postdoctoral Research Projects” project “DDNET – Data Driven Fault Accommodation for Distribution Networks” (PD12/2020), 2020-2022  
 Responsible for the “Proiect Experimental Demonstrativ” project “Graphomaly: software package for anomaly detection in graphs modeling financial transactions” (PED287/2020), 2020–2022  
 BRD Data Science Research Fellowships, 2019  
 BSD Fund: Futex Implementation for OpenBSD, 2011

## Academic Research

### *Publications*

### **Books**

1. B. Dumitrescu and **P. Irofti**, *Dictionary Learning Algorithms and Applications*, Springer, 2018  
**(Granted the Romanian Academy Award "Grigore Moisil")**

### **Chapters**

1. A. Pătrașcu, C. Păduraru, and **P. Irofti**, “Stochastic Proximal Gradient Algorithm with Minibatches. Application to Large Scale Learning Models,” in *Enabling AI applications in Data Science*, pp. 3–25. Springer, 2020
2. **P. Irofti**, A. Băltoiu, and A. Pătrașcu, “Fraud Detection in Networks,” in *Enabling AI applications in Data Science*, pp. 517–536. Springer, 2020

## Journal

1. L. Romero-Ben, **P. Irofti**, F. Stoican, and V. Puig, “Dual Unscented Kalman Filter Architecture for Sensor Fusion in Water Networks Leak Localization,” *IEEE Transactions on Control Systems Technology*, pp. 1–12, 2025
2. **P. Irofti**, L. Romero-Ben, F. Stoican, and V. Puig, “Learning Dictionaries from Physical-Based Interpolation for Water Network Leak Localization,” *IEEE Transactions on Control Systems Technology*, vol. 32, no. 3, pp. 755–766, 2023
3. A. Pătrașcu and **P. Irofti**, “On finite termination of an inexact Proximal Point algorithm,” *Applied Mathematics Letters*, vol. 134, pp. 108348, 2022
4. A. Pătrașcu and **P. Irofti**, “Stochastic proximal splitting algorithm for composite minimization,” *Optimization Letters*, vol. 15, pp. 2255—2273, 2021
5. **P. Irofti**, F. Stoican, and V. Puig, “Fault Handling in Large Water Networks with Online Dictionary Learning,” *Journal of Process Control*, vol. 94, pp. 46–57, 2020
6. F. Stoican and **P. Irofti**, “Aiding Dictionary Learning Through Multi-Parametric Sparse Representation,” *Algorithms*, vol. 12, no. 7, pp. 131, 2019
7. B. Dumitrescu and **P. Irofti**, “Regularized K-SVD,” *IEEE Signal Processing Letters*, vol. 24, no. 3, pp. 309–313, March 2017
8. **P. Irofti**, “Efficient Parallel Implementation for Single Block Orthogonal Dictionary Learning,” *Journal of Control Engineering and Applied Informatics*, vol. 18, no. 3, pp. 101–108, 2016
9. **P. Irofti**, “Efficient Dictionary Learning Implementation on the GPU Using OpenCL,” *U.P.B. Scientific Bulletin, Series C*, vol. 78, no. 3, pp. 39–50, 2016

## Conference

1. A. Duşa and **P. Irofti**, “CCubes: a quasi-polynomial, exact Boolean minimizer,” in *34th International Workshop on Logic and Synthesis*. 2025, pp. 1–7, IEEE
2. L. Romero-Ben, **P. Irofti**, F. Stoican, and V. Puig, “Nodal Hydraulic Head Estimation through Unscented Kalman Filter for Data-driven Leak Localization in Water Networks,” *12th IFAC Symposium on Fault Detection, Supervision and Safety for Technical Processes SAFEPROCESS 2024 (IFAC-PapersOnLine)*, vol. 58, no. 4, pp. 67–72, 2024
3. **P. Irofti**, “Pinky: A Modern Malware-oriented Dynamic Information Retrieval Tool,” in *International Conference on Information Technology and Communications Security*. Springer, 2023, pp. 65–78
4. A. Stancu, **P. Irofti**, and I. Leuștean, “OpenBSD formal driver verification with SeL4,” in *International Conference on Information Technology and Communications Security*. Springer, 2023, pp. 144–156
5. R. Băluțea and **P. Irofti**, “Software Mitigation of RISC-V Spectre Attacks,” in *International Conference on Information Technology and Communications Security*. Springer, 2023, pp. 51–64
6. **P. Irofti**, A. Pătrașcu, and A.I. Hiji, “Unsupervised Abnormal Traffic Detection through Topological Flow Analysis,” in *2022 14th International Conference on Communications (COMM)*. 2022, pp. 1–6, IEEE
7. **P. Irofti**, L. Romero-Ben, F. Stoican, and V. Puig, “Data-driven Leak Localization in Water Distribution Networks via Dictionary Learning and Graph-based Interpolation,” in *CCTA 2022 - 2022 IEEE International Conference on Control Technology and Applications (CCTA)*. 2022, pp. 1265–1270, IEEE
8. **P. Irofti**, C. Rusu, and A. Pătrașcu, “Dictionary Learning with Uniform Sparse Representations for Anomaly Detection,” in *ICASSP 2022 - 2022 IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP)*. 2022, pp. 3378–3382, IEEE

9. C. Rusu and **P. Irofti**, “Efficient and Parallel Separable Dictionary Learning,” in *Proceedings of the IEEE 2021 27th International Conference on Parallel and Distributed Systems (ICPADS)*. 2021, pp. 380–386, IEEE Computer Society

### *Projects*

**Coordinator and Principal Investigator** ”DeDDoS – Innovative hardware anti-DDoS solution based on artificial intelligence (AI)”, Solutions 2024 project, 2024-2026

**Coordinator and Principal Investigator** ”LEGAT – Advanced computer system based on artificial intelligence (AI) for identifying and extracting entities from unstructured data collections”, Solutions 2024 project, 2024-2026

**Coordinator and Principal Investigator** ”NetAlert – Automatic tools for detecting abnormal behavior in computer networks”, Solutions 2021 project, 2021-2023

**Principal Investigator** ”DDNET – Data Driven Fault Accommodation for Distribution Networks”, PD project, 2020-2022

**Principal Investigator** ”Graphomaly: software package for anomaly detection in graphs modeling financial transactions”, PED project, 2020–2022

”Innovation Hub for Advanced Cyber-Security Technologies”, PCCDI project 2018-2020

”Implementation and development of algorithms for the dynamic motion planning of robotic systems”, CEC 2017 project, 2017

”Set-theoretic approaches for fault tolerant control of complex systems”, TE 2015 project, 2015-2017

”Sparse representations in signal processing”, IDEI 2011 project, 2014-2016

### *Teaching Classes*

”Anomaly Detection”,  
Master Program,  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2024-present

”Numerical Analysis”,  
Bachelor Program ”Computer Science”,  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2021-present

”Signal Processing”,  
Bachelor Program ”Computer Science”,  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2020-present

”Static Analysis”,  
Master Program ”Security and Applied Logic”,

Faculty of Mathematics and Computer Science  
University of Bucharest, 2019-present

"Operating Systems: Design and Security",  
**(Received the ANIS Cybersecurity Award)**

Master Program "Security and Applied Logic",  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2018-present

"Using Operating Systems",  
Bachelor Program "Computer and Information Technology",  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2017-present

"Operating Systems", Bachelor Program "Computer Science",  
Faculty of Mathematics and Computer Science  
University of Bucharest, 2017-present

"Computation for Complex Systems", (with Prof. B. Dumitrescu),  
Master Program "Complex Systems",  
Faculty of Automatic Control and Computers  
University Politehnica of Bucharest, 2017-2018

"Numerical Methods" (Prof. B. Dumitrescu),  
Bachelor Program "Automatic Control and Systems Engineering",  
Faculty of Automatic Control and Computers  
University Politehnica of Bucharest, 2014-2018

"Parallel and distributed processing of data and knowledge" (with Prof. B. Dumitrescu),  
Master Program "Intelligent Systems Control",  
Faculty of Automatic Control and Computers  
University Politehnica of Bucharest, 2012-2017

"Modelling and Simulation" (Lecturer. F. Stoican),  
Bachelor Program "Automatic Control and Systems Engineering",  
Faculty of Automatic Control and Computers  
University Politehnica of Bucharest, 2015-2016

## Conference and Seminar Presentations

Dictionary Learning Applications in Control Theory (slides)

Recent Advances in Artificial Intelligence, Bucharest, Romania June 19-20, 2017

Making OpenBSD Useful on the Octeon Network Gear (video)

European BSD Conference, Sofia, Bulgaria September 25-28, 2014

Dynamic Analysis: Knowing When to Stop

Dagstuhl Seminar  
Challenges in Analysing Executables: Scalability, Self-Modifying Code and Synergy (14241)  
Schloss Dagstuhl, Leibniz-Zentrum fur Informatik,  
Leibniz, Germany, June 9-13, 2014

Porting OpenBSD on the MIPS64-based Octeon Platforms

BSDCan Conference, Ottawa, Ontario, Canada, May 14-17, 2014

Emulator Design, Traps and Pitfalls

Dagstuhl Seminar Analysis of Executables: Benefits and Challenges (12051)  
 Schloss Dagstuhl, Leibniz-Zentrum für Informatik,  
 Leibniz, Germany, January 29th - February 3rd, 2012

OpenBSD's New Suspend and Resume Framework (presentation)

European BSD Conference, Maarssen, Utrecht, Netherlands, October 6-9, 2011

Asian BSD Conference, Tokyo, Japan, March 17-20, 2011 (canceled due to natural disasters)

On the Linux Compatibility Layer in OpenBSD 5.0

Slackathon Conference, Stockholm University, Stockholm, Sweden, August 6th, 2011

Image Processing with Wavelet Transformations (in romanian)

Faculty of Automatic Control and Computers,  
 University Politehnica of Bucharest,  
 Bucharest, Romania, June, 2008

## Organized Conferences and Workshops

Ports Hackathon, Faculty of Computer Science and Mathematics,  
 University of Bucharest, Romania, Nov 5-12, 2019

## Conferences and Workshops Attended

Ports Hackathon, Epitech École d'Informatique, Nantes, France, April 23-29, 2018

Ports Hackathon, IN-Berlin, Berlin, Germany November 1-6, 2017

General Hackathon, Computer Laboratory, Cambridge, UK August 30th - September 5th, 2016

Ports Hackathon, Epitech École d'Informatique, Nantes, France, April 25-29, 2016

General Hackathon, SAIT Polytechnic, Calgary, Canada July 15-21, 2015

European General OpenBSD Hackathon, Ljubljana, Slovenia July 8-14, 2014

General Hackathon, University of Toronto, Toronto, Canada May 29th - June 5th, 2013

Network Hackathon, University of Otago, Dunedin, New Zealand January 13-19, 2013

Hardware Hackathon, Coimbra University, Coimbra, Portugal November 14-20, 2012

Network Hackathon, Starnberg, Germany September 17-21, 2012

General OpenBSD Hackathon, Budapest, Hungary July 7-14, 2012

Rthreads Hackathon, Henri Poincaré Institute, Paris, France April 10-14, 2012

Ports Hackathon, Budapest, Hungary November 12-18, 2011

European General OpenBSD Hackathon, Ljubljana, Slovenia September 16-23, 2011

General OpenBSD Hackathon, University of Alberta, Edmonton, Canada July 2-9, 2011

OpenBSD Kernel Hackathon, Hafnarfjordur, Iceland April 1-7, 2011

Ports Hackathon, Budapest, Hungary, October 23-29, 2010

Japan General Hackathon, Akiyamago, Sake Mura, Nagano, Japonia September 19-25, 2010

General OpenBSD Hackathon, University of Alberta, Edmonton, Canada June 25th - 3rd July, 2010

Hardware OpenBSD Hackathon, Coimbra University, Coimbra, Portugal November 21-27 2009

Ports Hackathon, Budapest, Hungary October 9-16, 2009

General OpenBSD Hackathon, University of Alberta, Edmonton, Canada, May 30th - June 7th, 2009

Ports Hackathon, Budapest, Hungary October 24-31, 2008

## Awards

Romanian Academy Award "Grigore Moisil" (together with Prof. Dr. Bogdan Dumitrescu) for the book "Dictionary Learning Algorithms and Applications" published at Springer in 2018

ANIS Cybersecurity Award for the "Operating Systems: design and security" course introduced in 2020 at the Security and Applied Logic Master Program of the University of Bucharest

## Other Activities

NewOrder Security Site Administrator.

Updated November 7, 2025
